Blanket Consent for Education Outside the Classroom

Education Outside the Classroom (EOTC) is the name given to all events/activities that occur outside the classroom, both on and off the school site. This includes sport.

Faith City School uses a range of environments and experiences to enhance our students' learning. We have ready access to the beach, rivers, mountains and the bush in our area and beyond. These areas are rich learning environments for our students both in and out of school. Students need to learn how to be safe in certain environments. Our school also values the concept of providing students with a wide range of opportunities. Thus, some of the learning for students occur beyond the school site and Faith City School seeks your consent for your child to participate in such learning with low risk.

You will be informed of these low risk activities e.g. library visit, when they occur but will not be required to complete permission slips for these activities every time they occur.

This agreement does not cover activities such as school camps or activities. Where activities are deemed as medium to higher risk activities your consent will be required. These will be fully communicated and permission from you will be required.

I/we agree to the participation of _____ in education outside of the classroom in learning with low risk. We have provided the school with up to date medical, supervision and learning information through the enrolment form and will make every endeavour to keep this information current.
